

Wednesday, July 27	
Preliminary Courses	Workshops, courses, registration: Faculty of Human Kinetics, University of Lisbon
Welcome Reception	Get together: Baía Hotel Cascais
Thursday, July 28	
Scientific Day 1	Presentations, keynote, posters: Faculty of Human Kinetics, University of Lisboa
Friday, July 29	
Networking Day	Sports activities and networking: Sintra-Cascais National Park Area
Evening Event	Barbecue: Bar do Guincho Cascais
Saturday, July 30	
Scientific Day 2	Presentations, keynote, posters: Faculty of Human Kinetics, University of Lisbon
Banquet	Conference dinner, awards ceremony, music & entertainment: Verbasco Restaurant, Oitavos Hotel Cascais

Dates

- **April 15, 2016** – Date on which early registration discount ends
- **April 15, 2016** – Hotel Baía room block reservation deadline
- **June 15, 2016** – No full refunds for cancellation after this date
- **July 18, 2016** – Advance registration deadline. Registrations after this date must be made onsite.

How to Register

Registration process info: www.regonline.com/esm2016

Registration fees (attendee):

- Early Registration (prior to April 15, 2016): EUR 395
- Late Registration (after April 15, 2016): EUR 495

Full registration includes:

- Workshops on Wednesday
- Welcome Reception on Wednesday
- Scientific Presentations on Thursday and Saturday
- Coffee breaks and lunch during presentations
- Networking Day incl. lunchbox and evening event on Friday
- Banquet on Saturday

Guest of Registered Attendee:

- Adult: EUR 295
- Child (ages 10-18): EUR 150

Includes all above listed items except coffee breaks, lunches, workshops, and scientific presentations.

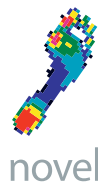

Attendee and Guest for One Day:

- Adult: EUR 150

Specific day must be selected in advance.

Expert Scientific Meeting on Load Distribution Measurement

July 27 - 30, 2016
University of Lisbon, Portugal

First Announcement Call for Papers ESM 2016

February 2016 | Information subject to change without notice

Venue

ESM 2016 will be held at the University of Lisbon, Portugal. The conference will begin on July 27th 2016 with workshops and software & education courses presented by novel providing attendees with information on the latest advances in load distribution measurement. In the evening all attendees will meet at the welcome reception.

Following the workshop day there will be two days of scientific research on the latest developments in load distribution measurement. Researchers from all disciplines (basic science, research and development, applied science, clinical, etc.) and utilizing all technologies of load distribution measurement are invited. The welcome reception, banquet and accommodations will be held in Cascais which is a small town close to Lisbon. In addition the networking day will take place on July 29th 2016. Following a day of different sporting activities we will enjoy a nice Barbecue at the Portuguese beach.

Host and Scientific Director

Prof. António Prieto Veloso, PhD
President, Sports and Health Department
of the Faculty of Human Kinetics
University of Lisbon
Lisbon, Portugal

Scientific Chair of the art in science® Commitee

Prof. Michael M. Morlock, PhD
Director, Institute of Biomechanics
TUHH Hamburg University of Technology
Hamburg, Germany

Recommended Hotels

Hotel Baía (conference rate from EUR 105/night incl. breakfast)
The cut-off for room reservations at Hotel Baía is April 15, 2016.
Hotel Oitavos (approx. EUR 205/night incl. breakfast)
There are many other hotels in Cascais. More details and other hotel options can also be found at www.esm2016.xyz.

art in science® Award 2016

The art in science® Award 2016, with a prize of EUR 5,000 will be presented for the best scientific manuscript in the field of dynamic load distribution in biomechanics. The paper must be entirely original, not published at the time of the meeting in any journal nor submitted for publication to any journal or book. The paper must describe a scientific study including load distribution measurement.

Deadline for submission of abstracts is February 15, 2016. Six of these abstracts will be nominated for the art in science® Award by April 11, 2016.

The nominated authors will be requested to send a full length (25 pages maximum, double spaced) paper by May 31, 2016, and will present the paper at the meeting in an approximately 30 minute talk. The review of the papers will be conducted by a prominent panel of experts. The art in science® Award will be presented to the winner at the banquet.

The general abstract instruction to authors may be found in the authors section at www.elsevier.com/locate/clinbiomech.

Winners of the art in science® Award 2014: H. Gaertner, University of Music Trossingen, Germany with V. Novak, ESM 2014 host and H. Hillstrom, ESM 2014 scientific chair

Winner of the Best Presentation Award 2014: S. A. Bus, Academic Medical Center, University of Amsterdam, The Netherlands with V. Novak, ESM 2014 host and H. Hillstrom, ESM 2014 scientific chair

Best Presentation Award

Award for the Best Presentation will be presented and the award recipient will receive EUR 1,000. The award is based on voting of the scientific committee. Abstracts for oral presentation in the field of load distribution measurement, that are not participating in the art in science® Award must be submitted by February 15, 2016.

Best Poster Award

Award for the Best Poster will be presented and the award recipient will receive EUR 1,000. The award is based on voting of the scientific committee. Abstracts for poster presentation in the field of load distribution measurement must be submitted by February 15, 2016.

Most Promising Proposal MPP

Anyone who has not defended his or her PhD prior to the first conference day (July 27, 2016) is eligible for the MPP Award. The goal is to present a project proposal which includes the investigation of load distribution on the human or animal body. The topic area can be freely chosen and a document of max. two pages (excl. reference list) must be submitted to the session chair not earlier than one hour before the award session starts. Seven printed copies must be provided. Proposals fitting the requirements will be presented in a separate session during ESM 2016. The main author will have 3 min for an oral presentation (no slides or posters) and 3 min for discussion. The winner will be the most innovative, relevant and most convincingly presented proposal. The award recipient will receive EUR 1,000.

Important dates

February 15, 2016	All abstracts due
April 11, 2016	Abstracts notified
May 31, 2016	Deadline for full length paper for art in science® Award
July 27-30, 2016	ESM 2016
